Home-making is the greatest of arts. The woman who makes her house attractive is an artist.

And it is so easy to be one today.

When customers come to this store we like to feel that by our advice we are helping to make a home, not merely selling something.

That is the way confidence in

the store and its goods is built up.

Today we are in a position to advise every woman in the selection of handsome, sturdy furniture for her home—for every room in the house.

The famous Simmons line is the foundation of our stock. If there was anything better at any price, we'd have it here.
